

NUTRITION FUND FAMILY ACCOUNT BALANCE

The Bellevue Community School District, for students/families returning for the next school year, will carry over all positive balances to the next school year. For graduating seniors, positive account balances will remain in the family account for siblings attending Bellevue Schools. If, however, there are no remaining siblings in the District, or the student or family is moving out of the District, the parents and/or guardians will be notified of the account balance. If the account balance is greater than \$2.00, a check will be sent to the parent and/or guardian once all associated bills and obligations have been cleared by the administration. If the amount is less than \$2.00, the parent and/or guardian may visit the school business office during normal business hours for a cash refund.

If a verbal or written response to the notice is not received within thirty (30) days, the account will be closed and the remaining account balance will be considered a donation to the Nutrition Fund.
