GOALS AND OBJECTIVES OF THE EDUCATION PROGRAM

The goals and objectives of the school district shall be designed to achieve the philosophy statement of the school district. An advisory committee of representatives of the school district community and the school district shall be appointed to make recommendations for the goals and objectives of the education program.

Short-term and long-term objectives for the education program shall be established annually by the board. These objectives shall reflect the results of the needs assessment, recommendation of the advisory committee, recommendations from the superintendent, and changes in law.

Annually, the board shall report to the committee regarding progress toward the achievement of the goals and objectives of the education program

SCHOOL CALENDAR

The school calendar shall accommodate the education program of the school district. The school calendar shall be for a minimum of 180 days or 1080 hours and include, but is not limited to, the days for student instruction, staff development, in-service days and teacher conferences. Each year the minimum school calendar may include up to 5 days or 30 hours of instruction delivered primarily over the internet.

The academic school year for students shall be for a minimum of one-hundred and eighty days in the school calendar. The academic school year for students shall begin no sooner than August 23. Employees may be required to report to work at the school district prior to this date.

Special education students may attend school on a school calendar different from that of the regular education program consistent with their Individualized Education Program.

The board, in its discretion, may excuse graduating seniors from up to five days of instruction after the school district requirements for graduation have been met. The board may also excuse graduating seniors from making up days missed due to inclement weather if the student has met the school district's graduation requirements.

It shall be the responsibility of the superintendent to develop the school calendar for recommendation, approval, and adoption by the board annually.

The board may amend the official school calendar when the board considers the change to be in the best interests of the school district's education program. The board shall hold a public hearing on any proposed school calendar prior to adopting the school calendar.

SCHOOL DAY

The student school day for grades one through twelve will consist of a minimum of six hours, not including the lunch period. The school day consists of the schedule of class instruction and class activities as established and sponsored by the school district. Time during which students are released from school for parent/teacher conferences may be counted as part of students' instructional time. The minimum school day will meet the requirements as established for the operation of accredited schools.

The board may define the number of days kindergarten will be held and the length of each school day for the students attending kindergarten. The school day will consist of a schedule as recommended by the superintendent and approved by the board.

The school district may also record a day of school with less than the minimum instructional hours if the total hours of instructional time for grades one through twelve in any five consecutive school days equals a minimum of thirty hours, even though any one day of school is less than the minimum instructional hours because of a staff development opportunity provided for the instructional staff or parent-teacher conferences have been scheduled beyond the regular school day. If the total hours of instructional time for the first four consecutive days equal at least thirty hours because parent-teacher conferences have been scheduled beyond the regular school day, the school district may record zero hours of instructional time on the fifth consecutive school day as a school day. Schedule revisions and changes in time allotments will be made by the superintendent.

When the school is forced to close due to weather or other emergencies, the part of the day during which school was in session will constitute a school day. The superintendent will create administrative regulations necessary to utilize any remote learning opportunities that are available and permitted by law during the period of closure. The provision of special education and accommodations for students who have individualized education programs (IEPs) or Section 504 plans during periods of closure will be determined by each respective IEP or Section 504 team.

It is the responsibility of the superintendent to inform the board annually of the length of the school day.

CURRICULUM DEVELOPMENT

Curriculum development is an ongoing process in the school district and consists of both research and design. Research is the studious inquiry and critical investigation of the various content areas for the purpose of revising and improving curriculum and instruction based on relevant information pertaining to the discipline. This study is conducted both internally (what and how we are currently doing at the local level) and externally (what national standards, professional organizations, recognized experts, current research, etc. tell us relative to the content area). Design is the deliberate process of planning and selecting the standards and instructional strategies that will improve the learning experiences for all students. The board delegates the curriculum development process to the Superintendent, who will make curriculum development recommendations and submit them to the board for final approval.

A systematic approach to curriculum development (careful research, design, and articulation of the curriculum) serves several purposes:

- Focuses attention on the content standards of each discipline and ensure the identified learnings are rigorous, challenging, and represent the most important learning for our students.
- Increases the probability that students will acquire the desired knowledge, skills and dispositions and that our schools will be successful in providing appropriate learning experiences.
- Facilitates communication and coordination.
- Improves classroom instruction.

The superintendent is responsible for the curriculum development process and for determining the most effective method of conducting research and design activities. A curriculum framework will describe the processes and procedures that will be followed in researching, designing, and articulating each curriculum area. This framework will at a minimum, describe the processes and procedures for the following curriculum development activities to:

- Study the latest thinking, trends research and expert advice regarding the content/discipline;
- Study the current status of the content/discipline (what and how well students are currently learning);
- Identify content standards, benchmarks, and grade level expectations for the content/discipline;
- Describe the desired learning behaviors, teaching and learning environment related to the content/discipline;
- Identify differences in the desired and present program and develop a plan for addressing the differences;

Approved June 2000

Reviewed July 2022

Revised November 2022

CURRICULUM DEVELOPMENT

- Communicate with internal and external publics regarding the content area;
- Involve staff, parents, students, and community members in curriculum development decisions;
- Verify how the standards and benchmarks of the content/discipline support each of the broader student learning goals and provide a K-12 continuum that builds on the prior learning of each level;
- Ensure proposed curriculum complies with applicable laws;
- Align annual improvement goals with needs assessment information.

It is the responsibility of the superintendent to keep the board apprised of necessary curriculum revisions, progress or each content area related to curriculum development activities, and to develop administrative regulations for curriculum development including recommendations to the board.

CURRICULUM IMPLEMENTATION

Without careful and continuing attention to implementation, planned changes in curriculum and instruction rarely succeed as intended. How change is put into practice, to a large extent, determines how well it fares.

Implementation refers to what actually happens in practice as compared to what was supposed to happen. Curriculum implementation includes the provision of organized assistance to staff in order to ensure that the newly developed curriculum and the most powerful instructional strategies are actually delivered at the classroom level. There are two components of any implementation effort that must be present to guarantee the planned changes in curriculum and instruction succeed as intended:

- Understanding the conceptual framework of the content/discipline being implemented; and,
- Organized assistance to understand the theory, observe exemplary demonstrations, have opportunities to practice, and receive coaching and feedback focused on the most powerful instructional strategies to deliver the content at the classroom level.

The superintendent is responsible for curriculum implementation and for determining the most effective way of providing organized assistance and monitoring the level of implementation. A curriculum framework will describe the processes and procedures that will be followed to assist all staff in developing the knowledge and skills necessary to successfully implement the developed curriculum in each content area. This framework will, at a minimum, describe the processes and procedures for the following curriculum implementation activities to:

- Study and identify the best instructional practices and materials to deliver the content;
- Describe procedures for the purchase of instructional materials and resources (See Policy _____. Boards should insert the policy number to cross reference their policy on Instructional Materials Selection);
- Identify/develop exemplars that demonstrate the learning behaviors, teaching, and learning environment to deliver the content;
- Study the current status of instruction in the content area (how teachers are teaching);
- Compare the desired and present delivery system, identify differences (gap analysis), and develop a plan for addressing the differences;
- Organize staff into collaborative study teams to support their learning and implementation efforts (address the gaps);
- Provide ongoing professional development related to instructional strategies and materials that focuses on theory, demonstration, practice and feedback;
- Regularly monitor and assess the level of implementation;

CURRICULUM IMPLEMENTATION

- Communicate with internal and external publics regarding curriculum implementation;
- Involve staff, parents, students, and community members in curriculum implementation decisions;
- Ensure the curriculum framework complies with applicable laws;
- Provide professional development to staff to support effective curriculum implementation.

It is the responsibility of the superintendent to keep the board apprised of curriculum implementation activities, progress of each content area related to curriculum implementation activities, and to develop administrative regulations for curriculum implementation including recommendations to the board.

CURRICULUM EVALUATION

Regular evaluation of the total curriculum is necessary to ensure that the written and delivered curriculum is having the desired effect for students.

Curriculum evaluation refers to an ongoing process of collecting, analyzing, synthesizing, and interpreting information to aid in understanding what students know and can do. It refers to the full range of information gathered in the school district to evaluate (make judgments about) student learning and program effectiveness in each content area.

Curriculum evaluation must be based on information gathered from a comprehensive assessment system that is designed for accountability and committed to the concept that all students will achieve at high levels, is standards-based, and informs decisions which impact significant and sustainable improvements in teaching and student learning.

The superintendent is responsible for curriculum evaluation and for determining the most effective way of ensuring that assessment activities are integrated into instructional practices as part of school improvement with a particular focus on improving teaching and learning. A curriculum framework will describe the procedures that will be followed to establish an evaluation process that can efficiently and effectively evaluate the total curriculum. This framework will, at a minimum, describe the procedures for the following curriculum evaluation activities:

- Identify specific purposes for assessing student learning;
- Develop a comprehensive assessment plan;
- Select/develop assessment tools and scoring procedures that are valid and reliable;
- Identify procedures for collecting assessment data;
- Identify procedures for analyzing and interpreting information and drawing conclusions based on the data (including analysis of the performance of various sub-groups of students);
- Identify procedures for establishing at least three levels of performance (specific to the content standard and the assessment tool when appropriate) to assist in determining whether students have achieved at a satisfactory level (at least two levels describe performance that is proficient or advanced and at least one level describes students who are not yet performing at the proficient level);
- Identify procedures for using assessment information to determine long-range and annual improvement goals;
- Identify procedures for using assessment information in making decisions focused on improving teaching and learning (data based decision making);

Approved June 2000

Reviewed July 2022

Revised November 2022

CURRICULUM EVALUATION

- Provide support to staff in using data to make instructional decisions;
- Define procedures for regular and clear communication about assessment results to the various internal and external publics (mandatory for communication about students receiving special education services);
- Define data reporting procedures;
- Verify that assessment tools are fair for all students and are consistent with all state and federal mandates;
- Verify that assessment tools measure the curriculum that is written and delivered;
- Identify procedures for deciding when multiple assessment measures are necessary for making good decisions and drawing appropriate conclusions about student learning;
- Identify roles and responsibilities of key groups;
- Involve staff, parents, students, and community members in curriculum evaluation;
- Ensure participation of eligible students receiving special education services in district-wide assessments.
- Ensure curriculum complies with applicable laws.

It is the responsibility of the superintendent to keep the board apprised of curriculum evaluation activities, the progress of each content area related to curriculum evaluation activities, and to develop administrative regulations for curriculum evaluation including recommendations to the board.

PILOT - EXPERIMENTAL - INNOVATIVE PROJECTS

The board welcomes new ideas in curriculum. Proposals for pilot or experimental projects shall first be reviewed and analyzed by the superintendent. Projects recommended by the superintendent will be considered by the board. Pilot and experimental projects approved by the board, the Iowa Department of Education, or the U. S. Department of Education may be utilized in the education program.

Students, who may be or are asked to participate in a research or experimental project or program, must have their parents' written consent on file prior to participating in the project or program. A research or experimental program or project requiring parents' prior written consent is a program or project designed to explore or develop new or unproven teaching methods or techniques. These programs or projects shall be designated as research or experimental projects or programs. The educational materials of a program or project designated as a research or experimental program or project may be inspected and reviewed by the parents of the students participating or being considered for participation in the program or project. The inspection and review by the parents shall be in accordance with board policy 605.2, "Instructional Materials Inspection."

It shall be the responsibility of the superintendent to develop administrative regulations regarding this policy.

BASIC INSTRUCTION PROGRAM

The basic instruction program will include the courses required for each grade level by the State Department of Education. The instructional approach will be gender fair and multicultural.

The basic instruction program of students enrolled in kindergarten is designed to develop healthy emotional and social habits, language arts and communication skills, the capacity to complete individual tasks, character education and the ability to protect and increase physical well-being with attention given to experiences relating to the development of life skills and human growth and development.

The basic instruction program of students enrolled in grades one through six will include English-language arts, social studies, mathematics, science, health, human growth and development, physical education, traffic safety, music, visual art and computer science. Computer science will be offered during at least one grade level

The basic instruction program of students enrolled in grades seven and eight will include English-language arts, social studies, mathematics, science, health, human growth and development, family and consumer, career, technology education, physical education, music, visual art and computer science. Computer science will be offered during at least one grade level

The basic instruction program of students enrolled in grades nine through twelve will include English-language arts (6 units), social studies (5 units), mathematics (6 units), science (5 units), health (1 unit), physical education (1 unit), fine arts (3 units), foreign language (4 units), financial literacy (1/2 unit) and vocational education (12 units) and computer science (1/2 unit).

The board may, in its discretion, offer additional courses in the instruction program for any grade level.

Each instruction program is carefully planned for optimal benefit taking into consideration the financial condition of the school district and other factors deemed relevant by the board or superintendent. Each instruction program's plan should describe the program, its goals, the effective materials, the activities and the method for student evaluation.

It is the responsibility of the superintendent to develop administrative regulations stating the required courses and optional courses for kindergarten, grades one through six, grades seven and eight, and grades nine through twelve.

SUMMER SCHOOL INSTRUCTION

The Bellevue Community School District recognizes the importance of ongoing learning opportunities for students. As such, the district shall offer summer school instruction in accordance with the following:

- Beginning in the summer of 2017, the district shall offer, unless a waiver from this requirement is granted by the Iowa Department of Education, an intensive summer literacy program for students assessed as exhibiting a substantial deficiency in reading. The applicable legal requirements for the intensive summer literacy program, including, but not limited to those relating to criteria and notification, shall be followed.
- The board, in its discretion, may offer summer school for one or more courses and student activities for students who need additional help and instruction or for enrichment in those areas. Upon receiving a request for summer school, the board will weigh the benefit to the students and the school district as well as the school district's budget and availability of licensed employees to conduct summer school.
- If a child who is eligible for special education has been determined to need extended school year services as necessary to receive a free appropriate public education, as determined according to state and federal law, such services shall be provided as described in the child's individualized education program.

It is the responsibility of the superintendent to develop administrative regulations regarding this policy.

SPECIAL EDUCATION

The board recognizes some students have different educational needs than other students. The board will provide a free appropriate public education program and related services to students identified in need of special education. The special education services will be provided from birth until the appropriate education is completed, age twenty-one or to maximum age allowable in accordance with the law. Students requiring special education will attend general education classes, participate in nonacademic and extracurricular services and activities and receive services in a general education setting to the maximum extent appropriate to the needs of each individual student. The appropriate education for each student is written in the student's Individualized Education Program (IEP).

Special education students are required to meet the requirements listed for special education students in IASB sample policy 505.5 – *Graduation Requirements* and in their IEPs for graduation. It is the responsibility of the superintendent and the area education agency director of special education to provide or make provisions for appropriate special education and related services.

Children from birth through age 2 and children age 3 through age 5 are provided comprehensive special education services within the public education system. The school district will work in conjunction with the area education agency to provide services, at the earliest appropriate time, to children with disabilities from birth through age 2. This is done to ensure a smooth transition of children entitled to early childhood special education services.

MULTICULTURAL/GENDER FAIR EDUCATION

Students will have an equal opportunity for a quality education without discrimination, regardless of their actual or perceived age, color, creed, national origin, race, religion, marital status, sex, sexual orientation, gender identity, physical attributes, physical or mental ability or disability, ancestry, political party preference, political belief, socioeconomic status or family status.

The education program shall be free of discrimination and provide equal opportunity for the students. The education program shall foster knowledge of and respect and appreciation for the historical and contemporary contributions of diverse cultural groups, as well as men and women, to society, including race, color, national origin, sex, disability, religion, creed, and socioeconomic background. Special emphasis shall be placed on Asian-Americans, African-Americans, Hispanic-Americans American Indians, European Americans and persons with disabilities. It shall also reflect the wide variety of roles open to both men and women and provide equal opportunity to both sexes.

HEALTH EDUCATION

Students in grade levels one through twelve shall receive, as part of their health education, instruction about personal health; food and nutrition; environmental health; safety and survival skills; consumer health; family life; human growth and development; substance abuse and non-use, including the effects of alcohol, tobacco, drugs and poisons on the human body; human sexuality; self-esteem; stress management; interpersonal relationships; emotional and social health; health resources; prevention and control of disease; and communicable diseases. The purpose of the health education program is to help each student protect, improve and maintain physical, emotional and social well-being.

The areas stated above shall be included in health education and the instruction shall be adapted at each grade level to aid understanding by the students.

Parents who object to health education instruction in human growth and development may file a written request that the student be excused from the instruction. The written request shall include a proposed alternate activity or study acceptable to the superintendent. The superintendent shall have the final authority to determine the alternate activity or study.

PHYSICAL EDUCATION

Students in grades one through twelve shall be required to participate in physical education courses unless they are excused by the principal of their attendance center.

Students may be excused from physical education courses if the student presents a written statement from a doctor stating that such activities could be injurious to the health of the student or the student has been exempted because of a conflict with the student's religious beliefs.

Students in grades 9-12 may also be excused from physical education courses if:

- the student is enrolled in academic courses not otherwise available,
- the student has obtained a physical education waiver for a semester because the student is involved in an athletic program,
- the student is participating in the Legislative Page Program at the state capitol for a regular session of the general assembly; or
- the student is enrolled in a junior reserve officer training corps.

Twelfth grade students may also be excused from physical education courses if the student is enrolled in a cooperative, work study or other educational program authorized by the school which requires the student's absence from school.

Students who will not participate in physical education must have a written request or statement from their parents.

TEACHING ABOUT RELIGION

The school district is required to keep the practice of religion out of the school curriculum. The board recognizes the key role religion has played in the history of the world and authorizes the study of religious history and traditions as part of the curriculum. Preferential or derogatory treatment of a single religion shall not take place.

It shall be the responsibility of the superintendent to ensure the study of religion in the schools in keeping with the following guidelines:

- the proposed activity must have a secular purpose;
- the primary objective of the activity must not be one that advances or inhibits religion; and
- the activity must not foster excessive governmental entanglement with religion.

TEACHING ABOUT RELIGION REGULATION - RELIGIOUS HOLIDAYS

The historical and contemporary significance of religious holidays may be included in the education program provided that the instruction is presented in an unbiased and objective manner. The selection of holidays to be studied shall take into account major celebrations of several world religions, not just those of a single religion. Holiday-related activities shall be educationally sound and sensitive to religious differences and shall be selected carefully to avoid the excessive or unproductive use of school time. Teachers shall be especially careful in planning activities that are to take place immediately preceding or on a religious holiday.

Music, art, literature and drama having religious themes (including traditional carols, seasonal songs and classical music) shall be permitted if presented in an objective manner without sectarian indoctrination. The emphasis on religious themes shall be only as extensive as necessary for a balanced and comprehensive study or presentation. Religious content included in student performances shall be selected on the basis of its independent educational merit and shall seek to give exposure to a variety of religious customs, beliefs and forms of expression. Holiday programs, parties or performances shall not become religious celebrations or be used as a forum for religious worship, such as the devotional reading of sacred writings or the recitations of prayers.

The use of religious symbols (e.g. a cross, menorah, crescent, Star of David, lotus blossom, nativity scene or other symbol that is part of a religious ceremony) shall be permitted as a teaching aid, but only when such symbols are used temporarily and objectively to give information about a heritage associated with a particular religion. The Christmas tree, Santa Claus, Easter eggs, Easter bunnies and Halloween decorations are secular, seasonal symbols and as such can be displayed in a seasonal context.

Expressions of belief or nonbelief initiated by individual students shall be permitted in composition, art forms, music, speech and debate. However, teachers may not require projects or activities which are indoctrinational or force students to contradict their personal religious beliefs or nonbeliefs.

ACADEMIC FREEDOM

The board believes students should have an opportunity to reach their own decisions and beliefs about conflicting points of view. Academic freedom is the opportunity of licensed employees and students to study, investigate, present, interpret, and discuss facts and ideas relevant to the subject matter of the classroom and appropriate to and in good taste with the maturity and intellectual and emotional capacities of the students.

It shall be the responsibility of the teacher to refrain from advocating partisan causes, sectarian religious views, or biased positions in the classroom or through teaching methods. Teachers are not discouraged from expressing personal opinions as long as students are aware it is a personal opinion and students are allowed to reach their own conclusions independently.

It shall be the responsibility of the principal to ensure academic freedom is allowed but not abused in the classroom.

Revised _____

TEACHING CONTROVERSIAL ISSUES

A "controversial issue" is a topic of significant academic inquiry about which substantial groups of citizens of this community, this state or this nation hold sincere, conflicting points of view.

It is the belief of the board that controversial issues should be fairly presented in a spirit of honest academic freedom so that students may recognize the validity of other points of view but can also learn to formulate their own opinions based upon dispassionate, objective, unbiased study and discussion of the facts related to the controversy.

It shall be the responsibility of the instructor to present full and fair opportunity and means for students to study, consider and discuss all sides of controversial issues including, but not limited to, political philosophies.

It shall be the responsibility of the instructor to protect the right of the student to study pertinent controversial issues within the limits of good taste and to allow the student to express personal opinions without jeopardizing the student's relationship with the teacher.

It shall be the responsibility of the teacher to refrain from advocating partisan causes, sectarian religious views, or selfish propaganda of any kind through any classroom or school device; however, an instructor shall not be prohibited from expressing a personal opinion as long as students are encouraged to reach their own decisions independently.

The board encourages full discussion of controversial issues in a spirit of academic freedom that shows students that they have the right to disagree with the opinions of others but that they also have the responsibility to base the disagreement on facts and to respect the right of others to hold conflicting opinions.

GLOBAL EDUCATION

Because of our growing interdependence with other nations in the world, global education shall be incorporated into the education program for grades kindergarten through twelve so that students have the opportunity to acquire a perspective on world issues, problems, and prospects for an awareness of the relationship between an individual's self-interest and the concerns of people elsewhere in the world.

CITIZENSHIP

Being a citizen of the United States, of Iowa and of the school district community entitles students to special privileges and protections as well as requiring the students to assume civic, economic and social responsibilities and to participate in their country, state and school district community in a manner that entitles them to keep these rights and privileges.

As part of the education program, students shall have an opportunity to learn about their rights, privileges, and responsibilities as citizens of this country, state and school district community. As part of this learning opportunity students shall be instructed in the elements of good citizenship and the role quality citizens play in their country, state and school district community.

PRIVATE INSTRUCTION

The Bellevue CSD recognizes that families with students of compulsory attendance age may select alternative forms of education outside the traditional school setting, including private instruction. The applicable legal requirements for private instruction, including, but not limited to those relating to reporting and evaluations for progress, shall be followed.

Except as otherwise exempted, in the event a child of compulsory attendance age as defined by law does not attend public school or an accredited nonpublic school, the child must receive private instruction. Private instruction means instruction using a plan and a course of study in a setting other than a public or organized accredited nonpublic school.

Private instruction can take the form of competent private instruction and independent private instruction. The Iowa Department of Education recognizes three options for delivery of this form of instruction: two options for delivery of competent private instruction and one option for independent private instruction.

Competent private instruction means either private instruction provided on a daily basis for at least one hundred forty-eight days during a school year, to be met by attendance for at least thirty-seven days each school quarter, by or under supervision of a licensed practitioner, which results in the student making adequate progress, or private instruction provided by a parent, guardian or legal custodian.

Independent private instruction means private instruction that meets the following criteria: (i) is not accredited, (ii) enrolls not more than four unrelated students, (iii) does not charge tuition, fees, or other remuneration for instruction, (iv) provides private or religious-based instruction as its primary purpose, (v) provides enrolled students with instruction in mathematics, reading and language arts, science, and social studies, (vi) provides, upon written request from the superintendent of the school district in which the independent private instruction is provided, or from the director of the department of education, a report identifying the primary instructor, location, name of the authority responsible for the independent private instruction, and the names of the students enrolled, (vii) is not a nonpublic school and does not provide competent private instruction as defined herein, and (viii) is exempt from all state statutes and administrative rules applicable to a school, a school board, or a school district, except as otherwise provided by law.

It is the responsibility of the superintendent to develop administrative regulations regarding this policy.

INDIVIDUALIZED INSTRUCTION

The board's primary responsibility in the management of the school district is the operation and delivery of the regular education program. Generally, students attending the school district shall receive the regular education program offered by the district. Only in exceptional circumstances will the board approve students receiving individualized instruction at the expense of the school district.

Recommendations from the superintendent for individualized instruction shall state the need for the instruction, the objectives and goals sought for the instruction, the employee requirements for the instruction, the implementation procedures for the instruction and the evaluation procedures and processes that will be used to assess the value of the instruction.

It shall be the responsibility of the superintendent to develop administrative regulations for individualized instruction.

INTERNATIONAL STUDY

The board recognizes some students may wish to take courses outside the country. Generally, students must obtain board approval prior to participating in the international student exchange program if the student wants to receive credit for the program. If it is a continuing program which has received a favorable evaluation by the administration and the program will be carried out in the future as it has in the past, prior board approval is not required.

The board's approval is not an assumption of liability, but rather an approval of the credits from the program toward graduation requirements. The students, employees or others traveling with the students shall assume all costs and maintain personal and liability insurance protection. The school district assumes no cost or liability for the participants.

It shall be the responsibility of the superintendent to keep the board informed of ongoing programs and to bring new programs to the board's attention.

RELIGIOUS-BASED EXCLUSION FROM A SCHOOL PROGRAM

Parents who wish to have their child excluded from a school program because of religious beliefs must inform the superintendent. The board authorizes the administration to allow the exclusion if it is not disruptive to the education program and it does not infringe on a compelling state or educational interest. Further, the exclusion must not interfere with other school district operations.

In notifying the superintendent, the parents shall abide by the following:

- The notice shall be in writing;
- The objection shall be based on religious beliefs;
- The objection shall state which activities or studies violate their religious beliefs;
- The objection shall state why these activities or studies violate their religious beliefs; and
- The objection shall state a proposed alternate activity or study.

The superintendent shall have discretion to make this determination. The factors the superintendent shall consider when a student requests to be excluded from a program or activity because of religious beliefs include, but are not limited to, staff available to supervise a student who wishes to be excluded, space to house the student while the student is excluded, available superintendent-approved alternative course of study or activity while the student is excluded, number of students who wish to be excluded, whether allowing the exclusion places the school in a position of supporting a particular religion, and whether the program or activity is required for promotion to the next grade level or for graduation.

Students who are allowed to be excluded from a program or activity which violates their religious beliefs shall be required to do an alternate supervised activity or study.

INSTRUCTION AT A POST-SECONDARY EDUCATIONAL INSTITUTION

Students in grades nine through twelve may receive academic or career and technical education credits that count toward the graduation requirements set out by the board for courses successfully completed in post-secondary educational institutions. Students and parents or guardians shall be made aware of the post-secondary instructional opportunities as part of the development of each student's individual career and academic plan as required by law. The superintendent or designee is responsible for developing the appropriate forms and procedures for implementing this policy and the following post-secondary educational opportunities:

Concurrent Enrollment

The board may, in its discretion, enter into a contractual agreement with a community college to provide courses for eligible students in grades nine through twelve when comparable courses are not offered by the school district. Notice of the availability of the concurrent enrollment program shall be included in the school district's registration handbook, and the handbook shall identify which courses, if successfully completed, generate post-secondary credit. Students shall not be charged for tuition for concurrent enrollment courses and shall not be required to reimburse the school district for tuition if they do not successfully complete the course. Students or their parents or guardians may be required to a fee consistent with the school district's established textbook policy and other materials for the concurrent enrollment course to the extent permitted by law. Students and their parents or guardians may also be required to provide their own transportation to and from concurrent enrollment courses to the extent permitted by law. However, transportation shall be the responsibility of the school district for any contracted course that is used to meet school district accreditation requirements.

Students who successfully complete a concurrent enrollment course, as determined by the postsecondary institution, shall receive postsecondary credit in accordance with the institution's policies and high school credit that will be reflected on the high school transcript. The Superintendent or designee shall grant to a student who successfully completes a concurrent enrollment course a unit of high school graduation credit for every unit of high school level instruction completed.

Post-Secondary Enrollment Option

Ninth and tenth grade students who have been identified by the school district as gifted or talented, and eligible eleventh and twelfth grade students, may utilize the Post-Secondary Enrollment Option (PSEO) program. To qualify, a course must be a nonsectarian, credit-bearing course that leads to a degree, and in the areas of: mathematics, science, social studies, humanities, career and technical education. A course is not eligible for PSEO if a comparable course is offered by the school district. In addition, courses at a community college with which the district has a concurrent enrollment agreement are not eligible for PSEO. Students shall not be charged for tuition, textbooks, materials, or fees related to a PSEO course with the exception of equipment that becomes property of the student.

The school district shall reimburse the post-secondary institute for tuition and other expenses for each PSEO course up to \$250. Students who successfully complete a PSEO course, as determined by the postsecondary institution, shall receive postsecondary credit and high school credit. The Superintendent or designee shall grant to a student who successfully completes a PSEO course a unit of high school graduation credit for every unit of high school level instruction completed.

Approved June 2000

Reviewed July 2017

Revised July 2023

INSTRUCTION AT A POST-SECONDARY EDUCATIONAL INSTITUTION

Transportation to and from the postsecondary institution is the responsibility of the student or parent or legal guardian of the student enrolled in the PSEO course. Eligible students may take up to seven hours of postsecondary credit during the summer months and receive high school credit upon completion of a post-secondary course. However, the student or student's parent or legal guardian are responsible for all costs associated with courses taken during the summer.

Students who fail a PSEO course and fail to receive credit are required to reimburse the school district for all costs directly related to the course up to the \$250 reimbursement maximum. Prior to registering, students under the age of eighteen are required to have a parent or guardian sign a form indicating that the parent is responsible for the costs of the course should the student fail the course and fail to receive credit. Reimbursement waivers may be granted by the board if sufficient verification is provided to show that the student was unable to complete the course for reasons outside the student's control, including but not limited to physical incapability, a death in the student's immediate family, or a move out of the school district.

DUAL ENROLLMENT

The parent, guardian, or custodian of a student receiving competent private instruction may also enroll the student in the school district in accordance with state law and policy. The student is considered under dual enrollment. The parent, guardian, or custodian requesting dual enrollment for the student should notify the board secretary no later than September 15 of the school year in which dual enrollment is sought on forms provided by the school district. On the form, they shall indicate the extracurricular and academic activities in which the student is interested in participating. The forms are available at the central administration office.

A dual enrollment student is eligible to participate in the school district's extracurricular and academic activities in the same manner as other students enrolled in the school district. The policies and administrative rules of the school district shall apply to the dual enrollment students in the same manner as the other students enrolled the school district. These policies and administrative rules shall include, but not be limited to, athletic eligibility requirements, the good conduct rule, academic eligibility requirements, and payment of applicable fees.

A dual enrollment student whose parent, guardian, or custodian has chosen standardized testing as the form of the student's annual assessment will not be responsible for the cost of the test or the administration of the test.

The school district shall notify the dual enrollment student of the extracurricular and academic activities in which the student wishes to participate.

The applicable legal requirements for dual enrollment including, but not limited to those related to reporting and eligibility, shall be followed. It shall be the responsibility of the superintendent to develop administrative regulations regarding this policy.

APPROPRIATE USE OF ONLINE LEARNING PLATFORMS

It is important to embrace technology that can foster a creative, interactive learning environment for students, and facilitate employee professional development and collaboration. The use of online platforms to host remote interaction between students and employees and to facilitate learning is encouraged in the district.

While student and employee instruction and communication using virtual and online platforms provides a wide array of learning opportunities, it is imperative that employees and students recognize that the use of such platforms is a privilege. Training related to the use of online learning platforms will be provided to employees and students.

The district shall carefully safeguard the right of students and employees to learn and teach in a respectful environment regardless of the method. All instruction and communication through online learning platforms should be appropriate to the age and ability of the participants. Students and employees should be aware that online platforms may be monitored by the district. Verbal and written communication occurring on these platforms may be recorded and stored by the district in accordance with applicable laws.

Any verbal or written communication on these platforms deemed to be inappropriate will subject the student and/or employee to the same disciplinary measures that would exist if the interaction took place through traditional in-person learning. Students and employees who have concerns about the proper use of these platforms are encouraged to speak with their teachers or building principal. The superintendent will make administrative regulations necessary to enforce this policy.

INSTRUCTIONAL MATERIALS SELECTION

The board has sole discretion to approve instructional materials for the school district. The board delegates this authority to licensed employees to determine which instructional materials will be utilized and purchased by the school district to licensed employees. The licensed employees will work closely together to ensure vertical and horizontal articulation of textbooks in the education program.

The board may appoint an ad hoc committee to assist the licensed employees in selecting instructional materials. The committee may be composed of any of the following groups of stakeholders: school district employees, parents, community members or representatives of community groups.

In reviewing current instructional materials for continued use and in selecting additional instructional materials, the licensed employees will consider the current and future needs of the school district as well as the changes and the trends in education and society. It is the responsibility of the superintendent to report to the board the action taken by the selection committee.

In making its recommendations to the superintendent, the licensed employees will select materials which:

- support the educational philosophy, goals and objectives of the school district;
- consider the needs, age, and maturity of students;
- are within the school district's budget;
- foster respect and appreciation for cultural diversity and difference of opinion;
- stimulate growth in factual knowledge and literary appreciation;
- encourage students to become decision-makers, to exercise freedom of thought and to make independent judgment through the examination and evaluation of relevant information, evidence and differing viewpoints;
- portray the variety of careers, roles, and lifestyles open to all people ; and,
- increase an awareness of the rights, duties, and responsibilities of each member of a multicultural society.

In the case of textbooks, the board will make the final decision after a recommendation from the superintendent. The criteria stated above for selection of instructional materials will also apply to the selection of textbooks. The superintendent may appoint licensed employees to assist in the selection of textbooks.

Gifts of instructional materials must meet these criteria stated above for the selection of instructional materials. The gift must be received in compliance with board policy 704.04, "Gifts - Grants - Bequests."

Cross Reference: 209.1 Ad Hoc Committees
505 Student Scholastic Achievement
602 Curriculum Development
605 Instructional Materials

SELECTION OF INSTRUCTIONAL MATERIALS

I. Responsibility for Selection of Instructional Materials

- The board is responsible for matters relating to the operation of the District.
- The responsibility for the selection of instructional materials is delegated to the professionally trained and licensed employees of the school system.
- While selection of materials may involve many people including principals, teacher-librarian, students, parents and community members, the responsibility for coordinating the selection of most instructional materials and making the recommendation for the purchase rests with licensed employees.
- Responsibility for coordinating the selection of instructional materials for distribution to classes will rest with the licensed employees, principal and superintendent.
- If the board appoints an ad hoc committee to make recommendations on the selection of instructional materials, the ad hoc committee is formed and appointed in compliance with the board policy on Ad Hoc Committees.

- The superintendent will inform the committee as to their role and responsibility in the process.
- The following statement is given to the ad hoc committee members:

Bear in mind the principles of the freedom to learn and to read and base your decision on these broad principles rather than on defense of individual materials. Freedom of inquiry is vital to education in a democracy.

Study thoroughly all materials referred to you and read available reviews. The general acceptance of the materials should be checked by consulting standard evaluation aids and local holdings in other schools.

Passages or parts should not be pulled out of context. The values and faults should be weighed against each other and the opinions based on the material as a whole.

In the event material is challenged, your report, presenting both majority and minority opinions, will be presented by the principal to the complainant at the conclusion of our discussion of the questioned material.

SELECTION OF INSTRUCTIONAL MATERIALS

II. Material selected for use in libraries and classrooms will meet the following guidelines:

- Religion - Material will represent any religions in a factual, unbiased manner. The primary source material of religions is considered appropriate, but material which advocates rather than informs, or is designed to sway reader judgment regarding religion, will not be included in the school libraries or classrooms.
- Racism - Material will present a diversity of race, custom, culture, and belief as a positive aspect of the nation's heritage and give candid treatment to unresolved intercultural problems, including those which involve prejudice, discrimination, and the undesirable consequences of withholding rights, freedom, or respect of an individual. Required material will comply with all applicable laws.
- Sexism - Material will reflect sensitivity to the needs, rights, traits and aspirations of individuals without preference or bias. Required materials will comply with all applicable laws.
- Age - Material will recognize the diverse contributions of various age groups and portray the continuing contributions of maturing members of society.
- Ideology - Material will present basic primary and factual information on an ideology or philosophy of government which exerts or has exerted a strong force, either favorably or unfavorably, over civilization or society, past or present. This material will not be selected with the intention to sway reader judgment and is related to the maturity level of the intended audience.
- Profanity and Sex – Material complies with all applicable laws and is subjected to a test of literary merit and reality by the teacher-librarians and licensed staff who will take into consideration their reading of public and community standards of morality.
- Controversial issues materials will be directed toward maintaining a balanced collection representing various views.

The selection decision should be made on the basis of whether the material presents an accurate representation of society and culture, whether the circumstances depicted are realistically portrayed, or whether the material has literary or social value when the material is viewed as a whole.

These guidelines will not be construed in such a manner as to preclude materials which accurately represent the customs, morals, manners, culture, or society of a different time or a different place.

III. Procedure for Selection

- A. Material purchased for libraries and classrooms is recommended for purchase by licensed employees, in consultation with administrative staff, school library staff, students or an ad hoc committee as appointed by the board. The material recommended for purchase is approved by the appropriate building administrator.

SELECTION OF INSTRUCTIONAL MATERIALS

1. The materials selected will support stated objectives and goals of the school district. Specifically, the goals are:
 - a. To acquire materials and provide service consistent with the demands of the curriculum;
 - b. To develop students' skills and resourcefulness in the use of libraries and learning resources;
 - c. To effectively guide and counsel students in the selection and use of materials and libraries;
 - d. To foster in students a wide range of significant interests;
 - e. To provide opportunities for aesthetic experiences and development of an appreciation of the fine arts;
 - f. To provide materials to motivate students to examine their own attitudes and behaviors and to comprehend their own duties and responsibilities as citizens in a pluralistic democracy;
 - g. To encourage life-long education through the use of the library; and,
 - h. To work cooperatively and constructively with the instructional and administrative staff in the school.
2. Materials selected are consistent with stated principles of selection. These principles are:
 - a. To select material, within established standards, which will meet the goals and objectives of the school district;
 - b. To consider the educational characteristics of the community in the selection of materials within a given category;
 - c. To present the racial, religious and ethnic groups in the community by:
 1. Portraying people, adults and children, whatever their ethnic, religious or social class identity, as human and recognizable, displaying a familiar range of emotions, both negative and positive.
 2. Placing no constraints on individual aspirations and opportunity.
 3. Giving comprehensive, accurate, and balanced representation to minority groups and women - in art and science, history and literature, and in all other fields of life and culture.

SELECTION OF INSTRUCTIONAL MATERIALS

4. Providing abundant recognition of minority groups and women by showing them frequently in positions of leadership and authority.
 - d. To intelligently, quickly, and effectively anticipate and meet needs through awareness of subjects of local, national and international interest and significance; and,
 - e. To strive for impartiality in the selection process.
3. The materials selected will meet stated selection criteria. These criteria are:
- a. Authority-Author's qualifications - education, experience, and previously published works;
 - b. Reliability:
 1. Accuracy-meaningful organization and emphasis on content, meets the material's goals and objectives, and presents authoritative and realistic factual material.
 2. Current-presentation of content which is consistent with the finding of recent and authoritative research.
 - c. Treatment of subject-shows an objective reflection for the multi-ethnic character and cultural diversity of society.
 - d. Language:
 1. Vocabulary:
 - a. Does not indicate bias by the use of words which may result in negative value judgments about groups of people;
 - b. Does not use "man" or similar limiting word usage in generalization or ambiguities which may cause others to feel excluded or dehumanized.
 2. Compatible to the reading level of the student for whom it is intended.
 - e. Format:
 1. Book
 - a. Adequate and accurate index;
 - b. Paper of good quality and color;
 - c. Print adequate and well spaced;

SELECTION OF INSTRUCTIONAL MATERIALS

- d. Adequate margins;
 - e. Firmly bound; and,
 - f. Cost.
2. Nonbook
- a. Flexibility, adaptability;
 - b. Curricular orientation of significant interest to students;
 - c. Appropriate for audience;
 - d. Accurate authoritative presentation;
 - e. Good production qualities (fidelity, aesthetically adequate);
 - f. Durability; and,
 - g. Cost.
3. Illustrations of book and nonbook materials should:
- a. Depict instances of fully integrated grouping and settings to indicate equal status and nonsegregated social relationships.
 - b. Make clearly apparent the identity of minorities;
 - c. Contain pertinent and effective illustrations;
 - d. Flexible to enable the teacher to use parts at a time and not follow a comprehensive instructional program on a rigid frame of reference.
- f. Special Features:
- 1. Bibliographies.
 - 2. Glossary.
 - 3. Current charts, maps, etc.
 - 4. Visual aids.
 - 5. Index.

SELECTION OF INSTRUCTIONAL MATERIALS

6. Special activities to stimulate and challenge students.

7. Provide a variety of learning skills.

g. Potential use:

1. Will it meet the requirement of reference work?

2. Will it help students with personal problems and adjustments?

3. Will it serve as a source of information for teachers and librarians?

4. Does it offer an understanding of cultures other than the student's own and is it free of racial, religious, age, disability, ethnic, gender identity and sexual stereotypes?

5. Will it expand students' sphere of understanding and help them to understand the ideas and beliefs of others?

6. Will it help students and teachers keep abreast of and understand current events?

7. Will it foster and develop hobbies and special interest?

8. Will it help develop aesthetic tastes and appreciation?

9. Will it serve the needs of students with special needs?

10. Does it inspire learning?

11. Is it relevant to the subject?

12. Will it stimulate a student's interest?

1. Gifts of library or instructional materials may be accepted if the gift meets existing criteria for library and instructional materials. The acceptance and placement of such gifts is within the discretion of the board.

2. In order to provide a current, highly usable collection of materials, teacher-librarians will ensure constant and continuing renewal of the collection, not only the addition of up-to-date materials, but by the judicious elimination of materials which no longer meet school district needs or find use. The process of weeding instructional materials will be done according to established and accepted standards for determining the relevance and value of materials in a given context.

INSTRUCTIONAL MATERIALS INSPECTION

Parents and other members of the school district community may view the instructional and library materials used by the students. All instructional materials, including teacher's manuals, films, tapes or other supplementary material which will be used in connection with any survey, analysis, or evaluation as part of any federally funded programs must be available for inspection by parents.

The district will publish on the district's website a comprehensive list of all books available to students in libraries operated by the district.

It is the responsibility of the superintendent to develop administrative regulations regarding the inspection of instructional materials.

OBJECTION TO INSTRUCTIONAL MATERIALS

Members of the school district community may object to the instructional and library materials utilized in the school district and ask for their use to be reconsidered.

It is the responsibility of the superintendent, in conjunction with the principals, to develop administrative regulations for reconsideration of instructional materials. Information related to the process for reconsideration of instructional and library materials will be made available on the district's website.

Parents or guardians of students enrolled in the district have the ability to request that their student not be able to access certain instructional material or check out certain library materials. For purposes of prohibiting access to instructional materials, Iowa law has defined instructional materials to mean either printed or electronic textbooks and related core materials that are written or published primarily for use in elementary school and secondary school instruction and are required by the state educational agency or district for use by students in the student's classes by the teacher of record. Instructional materials does not include lesson plans.

INSTRUCTIONS TO THE RECONSIDERATION COMMITTEE

The policy of this school district related to selection of learning materials states that any member of the school district community may formally challenge instructional materials used in the district's education program. This policy allows those persons in the school and the community who are not directly involved in the selection of materials to make their own opinions known. The task of the reconsideration committee is to provide an open forum for discussion of challenged materials and to make an informed recommendation on the challenge. The meetings of the committee may be subject to the open meetings law.

The most critical component of the reconsideration process is the establishment and maintenance of the committee's credibility in the community. For this purpose, the committee is composed of community members. The community should not, therefore, infer that the committee is biased or is obligated to uphold prior professional decisions. For this same reason, a community member will be selected to chair the committee.

The reconsideration process, the task of this committee, is just one part of the selection continuum. Material is purchased to meet a need. It is reviewed and examined, if possible, prior to purchase. It is periodically re-evaluated through updating, discarding, or re-examination. The committee must be ready to acknowledge that an error in selection may have been made despite this process. Librarians and school employees regularly read great numbers of reviews in the selection process, and occasional errors are possible.

In reconsidering challenged materials, the role of the committee, and particularly the chairperson, is to produce a climate for disagreement. The committee should begin by finding items of agreement, keeping in mind that the larger the group participating, the greater the amount of information available and, therefore, the greater the number of possible approaches to the problem.

If the complainant chooses, the complainant may make an oral presentation to the committee to expand and elaborate on the complaint. The committee will listen to the complainant, to those with special knowledge, and any other interested persons. In these discussions, the committee should be aware of relevant social pressures which are affecting the situation. Individuals who may try to dominate or impose a decision must not be allowed to do so. Minority viewpoints expressed by groups or individuals must be heard, and observers must be made to feel welcome. It is important that the committee create a calm, nonvolatile environment in which to deal with a potentially volatile situation. To this end, the complainant will be kept informed of the progress of the complaint.

The committee will listen to the views of all interested persons before making recommendations. In deliberating its recommendation, the committee should remember that the school system must be responsive to the needs, tastes, and opinions of the community it serves. Therefore, the committee must distinguish between broad community sentiment and attempts to impose personal standards. The deliberations should concentrate on the appropriateness of the material. The question to be answered by the committee is, "Is the material appropriate for its designated audience at this time?"

The committee's final recommendation will be (1) to remove the challenged material from the total school environment, (2) to take no removal action, or (3) to agree on a limitation of the educational use of the materials.

The committee chairperson will instruct the secretary to convey the committee's recommendation to the office of the superintendent. The recommendation should detail the rationale on which it was based. A letter will be sent to the complainant outlining the outcome.

SAMPLE LETTER TO INDIVIDUAL CHALLENGING INSTRUCTIONAL MATERIALS

Dear:

We recognize your concern about the use of _____ in our school district. The school district has developed procedures for selection of instructional materials but realizes that not everyone will agree with every selection made.

To help you understand the selection process, we are sending copies of the school districts:

1. Instructional goals and objectives,
2. Instructional Materials Selection policy statement, and,
3. Procedure for reconsideration of instructional materials.

If you are still concerned after you review this material, please complete the Reconsideration Request Form and return it to me. You may be assured of prompt attention to your request. If I have not heard from you within one week, we will assume you no longer wish to file a formal complaint.

Sincerely,

REQUEST TO PROHIBIT A STUDENT FROM ACCESSING SPECIFIC

RECONSIDERATION OF INSTRUCTIONAL MATERIALS REGULATION

A. A member of the school district community may raise an objection to instructional materials used in the school district's education program. While the individuals recommending the selection of such material were duly qualified to make the selection and followed the proper procedure and observed the criteria for selecting such material; the district must be ready to acknowledge that an error in selection may have been made despite this process. School employees regularly read great numbers of reviews in the selection process, and occasional errors are possible.

1. The complainant will address the complaint at the lowest organizational level of licensed staff. Often this will be the classroom teacher.
2. The school official or employee receiving a complaint regarding instructional or library materials will try to resolve the issue at the lowest organizational level. The materials generally will remain in use pending the outcome of the reconsideration procedure.
 - a. The school official or employee initially receiving a complaint will explain to the individual the district's selection procedure, criteria to be met by the instructional materials, and qualifications of those persons selecting the material.
 - b. The school official or employee initially receiving a complaint will explain to the individual the role of the objected material in the education program, its intended educational purpose, and additional information regarding its use. In the alternative, the employee may refer the individual to the teacher-librarian who can identify and explain the use of the material.
 - c. The school official or employee receiving the initial complaint will direct the complainant to complete the Request for Reconsideration of Instructional and Library Materials Form, and notify the building level principal of receipt of the complaint within two school days after the reconsideration form is received. Schools officials will offer to assist the complainant in completing the form, but if a complainant refuses to complete the form, the complaint will be deemed invalid and no further action taken.

B. Request for Reconsideration

1. A member of the school district community may formally challenge instructional and library materials on the basis of appropriateness used in the school district's education program. This procedure is for the purpose of considering the opinions of those persons in the school district and the community who are not directly involved in the selection process.
2. Each attendance center and the school district's central administrative office will keep on hand and make available Request for Reconsideration of Instructional and Library Materials Forms.
3. The individual will state the specific reason the instructional or library material is being challenged. The Request for Reconsideration of Instructional and Library Materials Form is signed by the individual and filed with the building-level principal.
4. The building-level principal will promptly file the objection with the Superintendent for re-evaluation.

RECONSIDERATION OF INSTRUCTIONAL MATERIALS REGULATION

5. The Superintendent will convene a reconsideration committee within two weeks of receipt of the Reconsideration Form.
6. The committee will make their recommendation to the Superintendent within five school days of meeting.
7. The Superintendent will issue a decision related to the Reconsideration Request Form within 5 school days of receipt of the committee's recommendation. A copy of the Superintendent's decision will be provided to the complainant.
8. An appeal of the Superintendent's decision may be filed with the board secretary within five days of the Superintendent's decision. The board will determine whether to hear the appeal at the next regular meeting or within 30 days of the Superintendent's decision, whichever is later. If the board elects to hear the appeal, the board will act to affirm, modify or reverse the decision of the Superintendent. The board's decision will be communicated to the complainant. The board's decision will be deemed final.
9. Generally, access to challenged instructional material will not be restricted during the reconsideration process. However, in unusual circumstances, the instructional material may be removed temporarily by following the provisions of Section B.6.d. of this rule.
10. The Reconsideration Committee
 - a. The reconsideration committee is made up of eight members.
 - (1) One licensed employee designated annually, as needed, by the superintendent.
 - (2) One teacher-librarian designated annually by the superintendent.
 - (3) One member of the administrative team designated annually by the superintendent.
 - (4) Three members of the community appointed annually, as needed, by the board.
 - b. The committee will select their chairperson and secretary.
 - c. The committee will meet at the request of the superintendent.
 - d. Special meetings may be called by the board to consider temporary removal of materials in unusual circumstances. A recommendation for temporary removal will require a two-thirds vote of the committee.
 - e. The committee may be subject to applicable open meetings and public records laws. Notice of the committee meeting is made public through appropriate communication methods as required by law.

RECONSIDERATION OF INSTRUCTIONAL MATERIALS REGULATION

- f. The committee will receive the completed Reconsideration Request Form from the superintendent.
- g. The committee will determine its agenda for the meeting which may include the following:
 - (1) Distribution of copies of the completed Reconsideration Request Form.
 - (2) An opportunity for the individual or a group spokesperson to talk about or expand on the Reconsideration Request Form.
 - (3) Distribution of reputable, professionally prepared reviews of the challenged instructional material if available.
 - (4) Distribution of copies of the challenged instructional material as available.
- h. The Committee will determine whether interested persons, including the individual filing the challenge, may have the opportunity to share their views. The committee may request that individuals with special knowledge be present to give information to the committee.
- i. The committee's final recommendation may be to take no removal action, to remove the challenged material from the school environment, or to limit the educational use of the challenged material. The sole criterion for the final recommendation is the appropriateness of the material for its intended educational use. The written final recommendation and its justification are forwarded to the superintendent, the complainant and the appropriate attendance centers.
- j. The individual filing the challenge is kept informed by the Superintendent of the status of the reconsideration request throughout the reconsideration process. The individual filing the challenge and known interested parties are given appropriate notice of meetings as required by law.
- k. Following the superintendent's decision with respect to the committee's recommendation, the individual may appeal the decision to the board for review.
- l. A recommendation to sustain a challenge will not be interpreted as a judgment of irresponsibility on the part of the individuals involved in the original selection or use of the material.
- m. Requests to reconsider materials which have previously been reconsidered by the committee must receive approval of two-thirds of the committee members before the materials will again be reconsidered.
- n. If necessary or appropriate in the judgment of the committee, the committee may consolidate related challenges, or decline to hear multiple challenges to the same materials. Generally, the committee will not hear subsequent challenges to the same materials within the same school year.

TECHNOLOGY AND INSTRUCTIONAL MATERIALS

The board supports the use of innovative methods and the use of technology in the delivery of the education program. The board encourages employees to investigate economical ways to utilize multi-media, computers, electronic devices and other technologies as a part of the curriculum.

It is the responsibility of the superintendent to develop a plan for the use of technology in the curriculum and to evaluate it annually. The superintendent will report the results of the evaluation and make a recommendation to the board annually regarding the use of technology in the curriculum.

SCHOOL LIBRARY

The school district will maintain a school library in each building for use by employees and by students during the school day.

Materials for the libraries will be acquired consistent with all applicable laws and board policy, "Instructional Materials Selection." The district shall provide access to all parents and guardians of students enrolled in the district an online catalog of all books available to students in the school libraries. This access will be displayed on the school district's website. Any challenges to library materials will be handled following the process for handling challenges to instructional and library materials as established in board policy.

It is the responsibility of the principal of the building in which the school library is located to oversee the use of materials in the library.

It is the responsibility of the superintendent to develop procedures for the selection and replacement of both library and instructional materials.

INTERNET - APPROPRIATE USE

Because technology is a vital part of the school district curriculum and the Internet will be made available to employees and students. Appropriate and equitable use of the Internet will allow employees and students to access resources unavailable through traditional means.

Students will be able to access the Internet through their teachers or on their own. Individual student accounts and electronic mail addresses may be issued to students. If a student already has an electronic mail address, the student may, with the permission of the supervising teacher, be permitted to use the address to send and receive mail at school.

The Internet can provide a vast collection of educational resources for students and employees. It is a global network which makes it impossible to control all available information. Because information appears, disappears and changes constantly, it is not possible to predict or control what students may locate. The school district makes no guarantees as to the accuracy of information received on the Internet. Although students will be under teacher supervision while on the network, it is not possible to constantly monitor individual students and what they are accessing on the network. Some students might encounter information that may not be of educational value. Student Internet records and access records are confidential records treated like other student records. Students' Internet activities will be monitored by the school district to ensure students are not accessing inappropriate sites that have visual depictions that include obscenity, child pornography or are harmful to minors. The school district will use technology protection measures to protect students from inappropriate access, including sites that include obscenity, child pornography or are harmful to minors.

The school district will monitor the online activities of students and will educate students about appropriate online behavior, including interacting on social networking sites and chat rooms. Students will also be educated on cyberbullying, including awareness and response. Employees will provide age appropriate training for students who use the Internet. The training provided will be designed to promote the school district's commitment to:

The standards and acceptable use of Internet services as set forth in the Internet Safety Policy;
Student safety with regard to:

- safety on the Internet;
- appropriate behavior while on online, on social networking Web sites, and
- in chat rooms; and
- cyberbullying awareness and response.

Compliance with the E-rate requirements of the Children's Internet Protection Act

Approved June 2000

Reviewed July 2022

Revised July 2017

Employees and students will be instructed on the appropriate use of the Internet. Parents will be required to sign a permission form to allow their students to access the Internet. Students will sign a form acknowledging they have read and understand the Internet Acceptable Use policy and regulations, that they will comply with the policy and regulations and *that they* understand the consequences for violation of the policy or regulations.

In compliance with federal law, this policy will be maintained at least five years beyond the termination of funding under the Children's Internet Protection Act (CIPA) or E-rate.

INTERNET ACCESS PERMISSION LETTER TO PARENTS

Your child has access to electronic communication known as the Internet. The Internet is a collection of more than 20,000 interconnected computer networks. The vast domain of information contained within Internet's libraries can provide unlimited opportunities to students.

Students will be able to access the Internet through their teachers. Individual student accounts and electronic mail addresses may be issued to students at this time. If a student already has an electronic mail address, he/she may, with permission of the supervising teacher be permitted to use the address to send and receive mail at school.

Students will be expected to abide by the following network etiquette:

- The use of the network is a privilege and may be taken away for violation of board policy or regulations. As a user of the Internet, students may be allowed access to other networks. Each network may have its own set of policies and procedures. Students will abide by the policies and procedures of these other networks.
- Students will respect all copyright and license agreements.
- Students will cite all quotes, references, and sources.
- Students will only remain on the system long enough to get needed information.
- Students will apply the same privacy, ethical and educational considerations utilized in other forms of communication.
- Student access for electronic mail will be through their own account. Students should adhere to the following guidelines:
 - Others may be able to read or access the mail, so private messages should not be sent.
 - Delete unwanted messages immediately.
 - Use of objectionable language is prohibited.
 - Always sign messages.
 - Always acknowledge receipt of a document or file.
- Students accessing Internet services that have a cost involved will be responsible for payment of those costs.

Date: _____

Students who access restricted items on the Internet shall be subject to the appropriate action described in the school's discipline policy or student handbook or to the following consequences:

_____ First Offense:

The above student has violated the Student Internet Policy by intentionally accessing restricted material. He/she may lose Internet access for up to three weeks at the discretion of the supervising teacher. A second offense will result in the student losing Internet access for a period up to three weeks.

_____ Second Offense:

The above student has violated the Student Internet Policy by intentionally accessing restricted material for a second time. As a consequence of this violation the above student has lost Internet access for a period up to six weeks.

_____ Third Offense:

The above student has violated the Student Internet Policy by intentionally accessing restricted material for a third time. As a consequence of this violation the above student has forfeited all Internet privileges for a period of one school year or the balance of the school year.

INTERNET - APPROPRIATE USE REGULATION

I. Responsibility for Internet Appropriate Use.

- A. The authority for appropriate use of electronic Internet resources is delegated to the licensed employees. For the purpose of this policy, Internet is defined as:

A collection of more than 20,000 interconnected computer networks involving an estimated 1.5 million computers and 25 million users around the world. It is a collaboration of private, public, educational, governmental and industrial sponsored networks whose operators cooperate to maintain the network infrastructure.

- B. Instruction in the proper use of the Internet system will be available to employees who will then provide similar instruction to their students.
- C. Employees are expected to practice appropriate use of the Internet, and violations may result in discipline up to, and including, discharge.

II. Internet Access.

- A. Access to the Internet is available to teachers and students as a source of information and a vehicle of communication.
- B. Students will be able to access the Internet through their teachers. Individual student accounts and electronic mail addresses may be issued to students at this time.
1. Making Internet access available to students carries with it the potential that some students might encounter information that may not be appropriate for students. However, on a global network, it is impossible to control all materials. Because information on the Internet appears, disappears and changes, it is not possible to predict or control what students may locate.
 2. It is a goal to allow teachers and students access to the rich opportunities on the Internet, while we protect the rights of students and parents who choose not to risk exposure to questionable material.
 3. The smooth operation of the network relies upon the proper conduct of the end users who must adhere to strict guidelines which require efficient, ethical and legal utilization of network resources.
 4. To reduce unnecessary system traffic, users may use real-time conference features such as talk/chat/Internet relay chat only as approved by the supervising teacher.
 5. Transmission of material, information or software in violation of any board policy or regulation is prohibited.

INTERNET - APPROPRIATE USE REGULATION

6. System users will perform a virus check on downloaded files to avoid spreading computer viruses.
7. The school district makes no guarantees as to the accuracy of information received on the Internet.

III. Student Use of Internet.

- A. Equal Opportunity - The Internet shall be available to all students within the school district through teacher access. The amount of time available for each student may be limited by the number of available terminals and the demands for each terminal.
- B. On-line Etiquette.
 1. The use of the network is a privilege and may be taken away for violation of board policy or regulations. As a user of the Internet, students may be allowed access to other networks. Each network may have its own set of policies and procedures. It is the user's responsibility to abide by the policies and procedures of these other networks.
 2. Students should adhere to on-line protocol:
 - a. Respect all copyright and license agreements.
 - b. Cite all quotes, references and sources.
 - c. Remain on the system long enough to get needed information, then exit the system.
 - d. Apply the same privacy, ethical and educational considerations utilized in other forms of communication.
 3. Student access for electronic mail will be through their own account. Students should adhere to the following guidelines:
 - a. Others may be able to read or access the mail so private messages should not be sent.
 - b. Delete unwanted messages immediately.
 - c. Use of objectionable language is prohibited.
 - d. Always sign messages.
 - e. Always acknowledge receipt of a document or file.

INTERNET - APPROPRIATE USE REGULATION

- C. Restricted Material - Students shall not intentionally access or download any text file or picture or engage in any conference that includes material which is obscene, libelous, indecent, vulgar, profane or lewd; advertises any product or service not permitted to minors by law; constitutes insulting or fighting words, the very expression of which injures or harasses others; or presents a clear and present likelihood that, either because of its content or the manner of distribution, it will cause a material and substantial disruption of the proper and orderly operation and discipline of the school or school activities, will cause the commission of unlawful acts or the violation of lawful school regulations.
- D. Unauthorized Costs - If a student gains access to any service via the Internet which has a cost involved or if a student incurs other types of costs, the student accessing such a service will be responsible for those costs.

IV. Student Violations--Consequences and Notifications.

Students who access restricted items on the Internet shall be subject to the appropriate action described in board policy or regulations or the following consequences:

1. First Violation - A verbal and written "Warning" notice will be issued to the student. The student may lose Internet access for a period of three weeks at the discretion of the supervising teacher. A copy of the notice will be mailed to the student's parent and a copy provided to the building principal.
2. Second Violation - A verbal and written "Second Violation" notice will be issued to the student. A copy of the notice will be sent to the student's parent and a copy provided to the building principal. The student shall forfeit all Internet privileges for a minimum period of six weeks.
3. Third Violation - A verbal and written "Third Violation" notice will be issued to the student. A copy of the notice will be sent to the student's parent and a copy provided to the building principal. The student shall forfeit all Internet privileges for one school year or for the balance of the school year.

USE OF INFORMATION RESOURCES

In order for students to experience a diverse curriculum, the board encourages employees to supplement their regular curricular materials with other resources. In so doing, the board recognizes that federal law makes it illegal to duplicate copyrighted materials without authorization of the holder of the copyright, except for certain exempt purposes. Severe penalties may be imposed for plagiarism, unauthorized copying or using of media, including, but not limited to, print, electronic and web-based materials, unless the copying or using conforms to the "fair use" doctrine. Under the "fair use" doctrine, unauthorized reproduction of copyrighted materials is permissible for such purposes as criticism, comment, news reporting, teaching, scholarship or research providing that all fair use guidelines are met.

While the school district encourages employees to enrich the learning programs by making proper use of supplementary materials, it is the responsibility of employees to abide by the school district's copying procedures and obey the requirements of the law. In no circumstances shall it be necessary for school district staff to violate copyright requirements in order to perform their duties properly. The school district will not be responsible for any violations of the copyright law by employees or students. Violation of the copyright law by employees may result in discipline up to, and including, termination. Violation of the copyright law by students may result in discipline, up to and including, suspension or expulsion.

Parents or others who wish to record, by any means, school programs or other activities need to realize that even though the school district received permission to perform a copyrighted work does not mean outsiders can copy it and re-play it. Those who wish to do so should contact the employee in charge of the activity to determine what the process is to ensure the copyright law is followed. The school district is not responsible for outsiders violating the copyright law or this policy.

Any employee or student who is uncertain as to whether reproducing or using copyrighted material complies with the school district's procedures or is permissible under the law should contact the principal, or teacher-librarian who will also assist employees and students in obtaining proper authorization to copy or use protected material when such authorization is required.

It is the responsibility of the superintendent, in conjunction with the principal, or teacher-librarian, to develop administrative regulations regarding this policy.

Revised _____

USE OF INFORMATION RESOURCES REGULATION

Employees and students may make copies of copyrighted materials that fall within the following guidelines. Where there is reason to believe the material to be copied does not fall within these guidelines, prior permission shall be obtained from the publisher or producer with the assistance of the principal, librarian, or teacher-librarian. Employees and students who fail to follow this procedure may be held personally liable for copyright infringement and may be subject to discipline by the board.

Under the "fair use" doctrine, unauthorized reproduction of copyrighted materials is permissible for such purposes as criticism, comment, news reporting, teaching, scholarship or research. Under the fair use doctrine, each of the following four standards must be met in order to use the copyrighted document:

- Purpose and Character of the Use – The use must be for such purposes as teaching or scholarship.
- Nature of the Copyrighted Work – The type of work to be copied.
- Amount and Substantiality of the Portion Used – Copying the whole of a work cannot be considered fair use; copying a small portion may be if these guidelines are followed.
- Effect of the Use Upon the Potential Market for or value of the Copyrighted Work – If resulting economic loss to the copyright holder can be shown, even making a single copy of certain materials may be an infringement, and making multiple copies presents the danger of greater penalties.

Authorized Reproduction and Use of Copyrighted Material Reminders:

- Materials on the Internet should be used with caution since they may, and likely are, copyrighted.
- Proper attribution (author, title, publisher, place and date of publication) should always be given.
- Notice should be taken of any alterations to copyrighted works, and such alterations should only be made for specific instructional objectives.
- Care should be taken in circumventing any technological protection measures. While materials copied pursuant to fair use may be copied after circumventing technological protections against unauthorized copying, technological protection measures to block access to materials may not be circumvented.

In preparing for instruction, a teacher may make or have made a single copy of:

- A chapter from a book;
- An article from a newspaper or periodical;
- A short story, short essay or short poem; or,
- A chart, graph, diagram, drawing, cartoon or picture from a book, periodical or newspaper.

A teacher may make multiple copies not exceeding more than one per pupil, for classroom use or discussion, if the copying meets the tests of "brevity, spontaneity and cumulative effect" set by the following guidelines. Each copy must include a notice of copyright.

- Brevity
 - A complete poem, if less than 250 words and two pages long, may be copied; excerpts from longer poems cannot exceed 250 words;
 - Complete articles, stories or essays of less than 2500 words or excerpts from prose works less than 1000 words or 10% of the work, whichever is less may be copied; in any event, the minimum is 500 words;
 - Each numerical limit may be expanded to permit the completion of an unfinished line of a poem or prose paragraph;

USE OF INFORMATION RESOURCES REGULATION

- One chart, graph, diagram, drawing, cartoon or picture per book or periodical issue may be copied. “Special” works cannot be reproduced in full; this includes children's books combining poetry, prose or poetic prose. Short special works may be copied up to two published pages containing not more than 10 percent of the work.
- Spontaneity – Should be at the “instance and inspiration” of the individual teacher when there is not a reasonable length of time to request and receive permission to copy.
- Cumulative Effect – Teachers are limited to using copied material for only one course for which copies are made. No more than one short poem, article, story or two excerpts from the same author may be copied, and no more than three works can be copied from a collective work or periodical column during one class term. Teachers are limited to nine instances of multiple copying for one course during one class term. Limitations do not apply to current news periodicals, newspapers and current news sections of other periodicals.

Copying Limitations

Circumstances will arise when employees are uncertain whether or not copying is prohibited. In those circumstances, the principal, librarian or teacher-librarian should be contacted. The following prohibitions have been expressly stated in federal guidelines:

- Reproduction of copyrighted material shall not be used to create or substitute for anthologies, compilations or collective works.
- Unless expressly permitted by agreement with the publisher and authorized by school district action, there shall be no copying from copyrighted consumable materials such as workbooks, exercises, test booklets, answer sheets and the like.
- Employees shall not:
 - Use copies to substitute for the purchase of books, periodicals, music recordings, consumable works such as workbooks, computer software or other copyrighted material. Copy or use the same item from term to term without the copyright owner's permission;
 - Copy or use more than nine instances of multiple copying of protected material in any one term;
 - Copy or use more than one short work or two excerpts from works of the same author in any one term;
 - Copy or use protected material without including a notice of copyright. The following is a satisfactory notice: NOTICE: THIS MATERIAL MAY BE PROTECTED BY COPYRIGHT LAW.
 - Reproduce or use copyrighted material at the direction of someone in higher authority or copy or use such material in emulation of some other teacher's use of copyrighted material without permission of the copyright owner.
 - Require other employees or students to violate the copyright law or fair use guidelines.

Authorized Reproduction and Use of Copyrighted Materials in the Library

A library may make a single copy or three digital copies of:

- An unpublished work in its collection;
- A published work in order to replace it because it is damaged, deteriorated, lost or stolen, provided that an unused replacement cannot be obtained at a fair price.
- A work that is being considered for acquisition, although use is strictly limited to that decision. Technological protection measures may be circumvented for purposes of copying materials in order to make an acquisition decision.

USE OF INFORMATION RESOURCES REGULATION

A library may provide a single copy of copyrighted material to a student or employee at no more than the actual cost of photocopying. The copy must be limited to one article of a periodical issue or a small part of other material, unless the library finds that the copyrighted work cannot be obtained elsewhere at a fair price. In the latter circumstance, the entire work may be copied. In any case, the copy shall contain the notice of copyright and the student or staff member shall be notified that the copy is to be used only for private study, scholarship or research. Any other use may subject the person to liability for copyright infringement.

Authorized Reproduction and Use of Copyrighted Music or Dramatic Works

Teachers may:

- Make a single copy of a song, movement, or short section from a printed musical or dramatic work that is unavailable except in a larger work for purposes of preparing for instruction;
- Make multiple copies for classroom use of an excerpt of not more than 10% of a printed musical work if it is to be used for academic purposes other than performance, provided that the excerpt does not comprise a part of the whole musical work which would constitute a performable unit such as a complete section, movement, or song;
- In an emergency, a teacher may make and use replacement copies of printed music for an imminent musical performance when the purchased copies have been lost, destroyed or are otherwise not available.
- Make and retain a single recording of student performances of copyrighted material when it is made for purposes of evaluation or rehearsal;
- Make and retain a single copy of excerpts from recordings of copyrighted musical works for use as aural exercises or examination questions; and,
- Edit or simplify purchased copies of music or plays provided that the fundamental character of the work is not distorted. Lyrics shall not be altered or added if none exist.

Performance by teachers or students of copyrighted musical or dramatic works is permitted without the authorization of the copyright owner as part of a teaching activity in a classroom or instructional setting. The purpose shall be instructional rather than for entertainment.

Performances of nondramatic musical works that are copyrighted are permitted without the authorization of the copyright owner, provided that:

- The performance is not for a commercial purpose;
- None of the performers, promoters or organizers are compensated; and,
- Admission fees are used for educational or charitable purposes only.

All other musical and dramatic performances require permission from the copyright owner. Parents or others wishing to record a performance should check with the sponsor to ensure compliance with copyright.

Recording of Copyrighted Programs

Television programs, excluding news programs, transmitted by commercial and non-commercial television stations for reception by the general public without charge may be recorded off-air simultaneously with broadcast transmission (including simultaneous cable retransmission) and retained by a school for a period not to exceed the first forty-five (45) consecutive calendar days after date of recording. Upon conclusion of this retention period, all off-air recordings must be erased or destroyed immediately. Certain programming such as that provided on public television may be exempt from this provision; check with the principal, librarian or the teacher-librarian or the subscription database, e.g. unitedstreaming.

USE OF INFORMATION RESOURCES REGULATION

Off-air recording may be used once by individual teachers in the course of instructional activities, and repeated once only when reinforcement is necessary, within a building, during the first 10 consecutive school days, excluding scheduled interruptions, in the 45 calendar day retention period. Off-air recordings may be made only at the request of and used by individual teachers, and may not be regularly recorded in anticipation of requests. No broadcast program may be recorded off-air more than once at the request of the same teacher, regardless of the number of times the program may be broadcast. A limited number of copies may be reproduced from each off-air recording to meet the legitimate needs of teachers. Each additional copy shall be subject to all provisions governing the original recording.

After the first ten consecutive school days, off-air recordings may be used up to the end of the 45 calendar day retention period only for evaluation purposes, i.e., to determine whether or not to include the broadcast program in the teaching curriculum. Permission must be secured from the publisher before the recording can be used for instructional purposes after the 10 day period.

Off-air recordings need not be used in their entirety, but the recorded programs may not be altered from their original content. Off-air recordings may not be physically or electronically combined or merged to constitute teaching anthologies or compilations. All copies of off-air recordings must include the copyright notice on the broadcast program as recorded.

Authorized Reproduction and Use of Copyrighted Computer Software

Schools have a valid need for high-quality software at reasonable prices. To assure a fair return to the authors of software programs, the school district shall support the legal and ethical issues involved in copyright laws and any usage agreements that are incorporated into the acquisition of software programs. To this end, the following guidelines shall be in effect:

- All copyright laws and publisher license agreements between the vendor and the school district shall be observed;
- Staff members shall take reasonable precautions to prevent copying or the use of unauthorized copies on school equipment;
- A back-up copy shall be purchased, for use as a replacement when a program is lost or damaged. If the vendor is not able to supply a replacement, the school district shall make a back-up copy that will be used for replacement purposes only;
- A copy of the software license agreement shall be retained by the board secretary, technology director or teacher-librarian; and,
- A computer program may be adapted by adding to the content or changing the language. The adapted program may not be distributed.

Fair Use Guidelines for Educational Multimedia

Students may incorporate portions of copyrighted materials in producing educational multimedia projects such as videos, Power Points, podcasts and web sites for a specific course, and may perform, display or retain the projects.

USE OF INFORMATION RESOURCES REGULATION

Educators may perform or display their own multimedia projects to students in support of curriculum-based instructional activities. These projects may be used:

- In face-to-face instruction;
- In demonstrations and presentations, including conferences;
- In assignments to students;
- For remote instruction if distribution of the signal is limited;
- Over a network that cannot prevent duplication for fifteen days, after fifteen days a copy may be saved on-site only; or,
- In their personal portfolios.

Educators may use copyrighted materials in a multimedia project for two years, after that permission must be requested and received.

The following limitations restrict the portion of any given work that may be used pursuant of fair use in an educational multimedia project:

- Motion media: ten percent or three minutes, whichever is less;
- Text materials: ten percent or 1,000 words, whichever is less;
- Poetry: an entire poem of fewer than 250 words, but no more than three poems from one author or five poems from an anthology. For poems of greater than 250 words, excerpts of up to 250 words may be used, but no more than three excerpts from one poet or five excerpts from an anthology;
- Music, lyrics and music video: Up to ten percent, but no more than thirty seconds. No alterations that change the basic melody or fundamental character of the work;
- Illustrations, cartoons and photographs: No more that five images by an artist, and no more than ten percent or fifteen images whichever is less from a collective work;
- Numerical data sets: Up to ten percent or 2,500 field or cell entries, whichever is less;

Fair use does not include posting a student or teacher's work on the Internet if it includes portions of copyrighted materials. Permission to copy shall be obtained from the original copyright holder(s) before such projects are placed online. The opening screen of such presentations shall include notice that permission was granted and materials are restricted from further use.

SHARED STUDENTS

The board may make arrangements for sharing students with neighboring school districts in order to expand the opportunities available in the education program or in the operation of the school district. It shall be within the discretion of the board to determine when and with which school district sharing agreements will be made.

It shall be the responsibility of the superintendent to bring to the board's attention opportunities for sharing students with neighboring school districts.

HOMework

Homework, extra class activities or assignments beyond the regular classroom instruction program are a part of the education program. Homework will be an extension and an enrichment of the classroom instruction.

Homework shall be an opportunity for students to practice skills and activities, to share and discuss ideas, to review materials, to become acquainted with resources, to organize thoughts, to prepare for classroom activity, or to make up incomplete assignments.

The amount of homework in grades one through six shall be appropriate. A reasonable amount of homework is required in grades seven through twelve.

Guidelines regarding homework shall be developed in conjunction with the curriculum of the education program.

SCHOOL CEREMONIES AND OBSERVANCES

The school district will continue school ceremonies and observances which have become a tradition and a custom of the education program. These include, but are not limited to, reciting the Pledge of Allegiance and observance of holidays, such as Christmas, Halloween and Easter, by programs and performances. Such ceremonies or observances shall have a secular purpose and shall not advocate or sponsor a particular religion.

The district will provide and maintain a suitable flagstaff at each school site and raise the Iowa and United States flags each school day as weather conditions permit. The district will display the United States flag and administer the Pledge of Allegiance in each 1st through 12th grade classroom on school days.

Students who do not wish to participate in these activities may be silent during the ceremony or observance or receive permission from the principal to be excused from the ceremony for religious reasons in compliance with board policy.

ANIMALS IN THE CLASSROOM

Live animals will not be allowed in school district facilities except under special circumstances and only for an educational purpose. Permission from the principal will be required of anyone wishing to bring an animal into school district facilities. Appropriate supervision of animals is required when animals are brought into the school district facilities.

The person bringing the animal must furnish transportation for the animal brought to school. Animals will not be allowed to travel to and from the student's attendance center on the school bus without prior approval from the principal.

It is the responsibility of the principal to determine appropriate supervision of animals in the classroom. This policy is not intended to address the use of service animals, assistive animals, therapy animals or emotional support animals on District property.

STUDENT FIELD TRIPS AND EXCURSIONS

The principal may authorize field trips and excursions when such events contribute to the achievement of education goals of the school district. The school district will provide transportation for field trips and excursions.

In authorizing field trips and excursions, the principal shall consider the financial condition of the school district, the educational benefit of the activity, the inherent risks or dangers of the activity, and other factors deemed relevant by the superintendent. Written parental permission will be required prior to the student's participation in field trips and excursions.

Field trips and excursions are to be arranged with the principal well in advance. A detailed schedule and budget must be submitted by the employee. The school district will be responsible for obtaining a substitute teacher if one is needed. Following field trips and excursions, the teacher may be required to submit a written summary of the event.

INSUFFICIENT CLASSROOM SPACE

It is the goal of the district to create learning environments that encourage the growth and development of each student. Providing classrooms with an appropriate student-teacher ratio is central to achieving this goal. Insufficient classroom space exists when conditions in the district adversely affect the implementation of the district's goals and its educational program.

Insufficient classroom space is determined on a case-by-case basis.

In making its determination whether insufficient classroom space exists, the board may consider several factors, including but not limited to, the nature of the education program, the grade level, the available licensed employees, the instructional method, the physical space, student-teacher ratios, equipment and materials, facilities either being planned or under construction, facilities planned to be closed, financial condition of the school district and projected to be available, a sharing agreement in force or planned, a bargaining agreement in force, laws or rules governing special education class size, board-adopted school district goals and objectives, and other factors considered relevant by the board.

This policy is reviewed by the board annually. It is the responsibility of the superintendent to bring this policy to the attention of the board each year.

EARLY RELEASE FOR SENIORS

The school academic year for students shall be for a minimum of one-hundred and eighty days in the school calendar. Seniors may be excused up to five days of instruction after they have met the district's requirements for graduation. The board may also excuse graduating seniors from making up days due to inclement weather if the student has met the school district's graduation requirements.

The superintendent has the authority to deny early release, or reduce the number of days for which graduating seniors may be excused, if a senior has failed to meet the requirements for graduation, as a form of discipline for an individual or for the class as a whole, or if the academic year has been disrupted by school closings for severe weather or other emergencies.

ASSISTANCE ANIMALS

It is the policy of *the Bellevue Community School District* to foster an equal education environment for all students, employees and community members within the district. The purpose of this policy is to provide guidance to the district on the proper use of assistance animals while on district property. The district shall allow the use of qualified service animals and assistive animals to accompany individuals with disabilities in all areas of district buildings where the public is normally allowed to go. This can include classrooms, cafeteria and school buses. Individuals with disabilities are people who have a physical or mental impairment that substantially limits one or more major life activities. Service animals are dogs and in some instances miniature horses trained to do work or perform tasks for individuals with disabilities. Assistive animals are simians or any other animal specially trained or in the process of being trained to assist a person with a disability.

Service animals and assistive animals must be current on all required vaccinations. Service animals and assistive animals also must be under control while on district grounds. The animal may be under control by either the individual with a disability, or a handler of the service or assistive animal. Under control means harnessed, leashed or tethered, unless these devices interfere with the animal's work, in which case under voice or other directive control.

Miniature Horses as Service Animals

Miniature horses shall be allowed as service animals within the district whenever it is reasonable to allow them. Factors to consider when determining reasonableness include: whether the miniature horse is house broken; whether the miniature horse is under the owner's control; whether the facility can accommodate the miniature horse's type, size and weight; and whether the miniature horse's presence will not compromise legitimate safety requirements necessary for safe operation of the facility.

Establishing the Need for a Service Animal

When no prior notice is given to the district of the use of a service or assistive animal, the Superintendent and/or school administrators are permitted to ask the following questions:

"Do you need/require this animal because of a disability?"

If the animal's trained tasks are not readily apparent, the administrator may ask:

"What work or task has the animal been trained to perform?"

Service and Assistive Animals in training

Assuming the handler and animal are otherwise allowed, individuals who train service and/or assistive animals will also be allowed access with their service animal in training to public areas of district buildings and property. The service or assistive animal in training is expected to abide by the same requirements as a service or assistive animal.

Approved December 2018

Reviewed July 2022

Revised _____

Exclusion of Service and Assistive Animals

In certain limited circumstances, it may be reasonable to exclude the use of a service or assistive animal from district property. The Superintendent is permitted to exclude service and assistive animals from district buildings and property in the following circumstances: The presence of the animal poses a direct threat to the health and safety of others; the owner or handler is unable to control the animal; the animal is not house broken; the presence of the animal significantly disrupts or interferes with the educational process; or the presence of the animal would require a fundamental alteration to the program. If a service animal is properly excluded from district property, the district shall provide the student served by the animal the opportunity to participate in the program, service or activity without having the service animal on district property.

Emotional Support Animals and Therapy Animals [Optional section as these animals are not commonly required to be accommodated]

Emotional support animals are medically prescribed to provide therapeutic benefit through dedicated companionship. Emotional support animals' sole function is to provide emotional support or comfort.

Therapy animals are involved in an animal-assisted therapy program involving animals as a form of treatment.

Emotional support animals and therapy animals do not meet the definition of service or assistive animals. However, the district recognizes their value in our community. The superintendent shall evaluate the use of emotional support animals and therapy animals on a case-by-case basis. District employees may use therapy animals in the course of their regular duties only after receiving permission from the superintendent.

Student use of Emotional Support Animals and Therapy Animals

Factors the superintendent should consider in making the determination include but are not limited to:

1. a. *Whether the animal is housebroken*
2. b. *Whether the animal has a current vaccination certificate*
3. c. *Whether the animal has been recommended through an individual education plan (IEP) or a 504 plan as necessary for the student to receive free access to public education*
4. d. *Whether the facility can accommodate the animal's type size and weight, and*
5. e. *Whether the animal's presence will not compromise legitimate safety requirements necessary for safe operation of the facility*

Employee use of Therapy Animals as part of Education Environment

Before permission to use therapy animals is granted, staff members must provide:

1. 1. *Proof that the animal is certified to be a therapy animal;*
2. 2. *An explanation of how the animal will be used, including research supporting the use of therapy animals;*
3. 3. *A plan for how the staff member will provide for the care and control of the animal;*
4. 4. *A plan for how the staff member will accommodate students with allergies to the animal;*
and
5. 5. *A current vaccination certificate for the animal.*

STUDENT HEALTH SERVICES

Health services are an integral part of comprehensive school assisting all students to increase learning, achievement, and performance. Health services coordinate and support existing programs to assist each student in achievement of an optimal state of physical, mental and social well being. Student health services ensure continuity and create linkages between school, home, and community service providers. The school district's needs, and resources determine the linkages.

Except in emergent care situations or child abuse assessments, the district will not administer invasive physical examinations or health screenings of a student that are not required by state or federal law without first obtaining the written consent of the student's parent or guardian.

- Emergent care situation means a sudden or unforeseen occurrence of onset of a medical or behavioral condition that could result in serious injury or harm to a student or others in the event immediate medical attention is not provided. Emergent care situation includes the need to screen a student or others for symptoms or exposures during an outbreak or public health event of concern as designated by the department of public health.
- Invasive physical examination means any medical examination that involves the exposure of private body parts or any act during such examination that includes incision, insertion, or injection into the body, but does not include a hearing, vision or scoliosis screening.
- Student health screening means an intentionally planned, periodic process to identify if students may be at risk for a health concern and to determine if a referral for an in-depth assessment is needed to consider appropriate health services. Student health screening does not include an episodic, individual screening done in accordance with professional licensed practice.

The superintendent, in conjunction with the (school nurse, health advisory committee, public health nurse, school health team, etc.) will develop administrative regulations implementing this policy. The superintendent will provide a written report on the role health services in the education program to the board annually.

STUDENT HEALTH SERVICES REGULATION

Student Health Services Administrative Regulations

- I. Student Health Services – Each school building may develop a customized student health services program based on its unique needs and resources. Scientific advances, laws, and school improvement necessitate supports to students with health needs to receive their education program.

Supports to improve student achievement include:

- qualified health personnel
- school superintendent, school nurse, and school health team working collaboratively
- family and community involvement
- optimal student health services program with commitment to its continuing involvement

Component provided with a coordinated school health program include:

- health services
- nutrition
- healthy, safe environment
- staff wellness
- health education
- physical education and activity
- counseling, psychological, and social services
- family and community involvement

Student health services are provided to identify health needs; facilitate access to health care; provide for health needs related to educational achievement; promote health, well being, and safety; and plan and develop the health services program.

II. Student Health Services Essential Functions

A. Identify student health needs:

1. Provide individual initial and annual health assessments
2. Provide needed health screenings
3. Maintain and update confidential health records
4. Communicate (written, oral, electronic) health needs as consistent with confidentiality laws

B. Facilitate student access to physical and mental health services:

1. Link students to community resources and monitor follow through
2. Promote increased access and referral to primary health care financial resources such as Medicaid, HAWK-I, social security, and community health clinics
3. Encourage appropriate use of health care

C. Provide for student health needs related to educational achievement:

1. Manage chronic and acute illnesses
2. Provide special health procedures and medication including delegation, training, and supervision of qualified designated school personnel
3. Develop, implement, evaluate, and revise individual health plans (IHPs) for all students with special health needs according to mandates in the Individuals with Disabilities Education Act (IDEA) Rehabilitation Act (Section 504), and Americans with Disabilities Act (ADA)
4. Provide urgent and emergency care for individual and group illness and injury

STUDENT HEALTH SERVICES REGULATION

5. Prevent and control communicable disease and monitor immunizations
 6. Promote optimal mental health
 7. Promote a safe school facility and a safe school environment
 8. Participate in and attend team meetings as a team member and health consultant
 - D. Promote student health, well being, and safety to foster healthy living:
 1. Provide developmentally appropriate health education and health counseling for individuals and groups
 2. Encourage injury and disease prevention practices
 3. Promote personal and public health practices
 4. Provide health promotion and injury and disease prevention education
 - E. Plan and develop the student health services program collaboratively with the superintendent, school nurse, school health team:
 1. Gather and interpret data to evaluate needs and performance
 2. Establish health advisory council and school health team
 3. Develop health procedures and guidelines
 4. Collaborate with staff, families, and community
 5. Maintain and update confidential student health records
 6. Coordinate program with school health components
 7. Coordinate with school improvement
 8. Evaluate and revise the health service program to meet changing needs
 9. Organize scheduling and direct health services staff
 10. Develop student health services annual report
 11. Coordinate information and program delivery with the school and between school and major constituents
 12. Provide health services by qualified health professionals to effectively deliver services, including multiple levels of school health expertise such as registered nurses, physicians, and advanced registered nurse practitioners
 13. Provide for professional development for school health services staff
- III. Expanded Health Services
- These additional health services address learning barriers and the lack of access to health care. Examples include school-based services in the school, school-linked services connected to the school, primary care, mental health, substance abuse, and dental health.

MUSICAL INSTRUMENT DISPLAY NIGHT

Annually, as a service to students and their parents, the board may hold a musical instrument display night. The event is designed to provide an opportunity for students and their parents to view, purchase, or rent musical instruments and accessories if they desire.

This policy does not require students and parents to purchase musical instruments from the vendor displaying at this event. This policy shall not limit a student's participation in the band or require a student to participate in band or other activities involving musical instruments.

It shall be the responsibility of the superintendent to develop guidelines regarding the qualifications a vendor must meet to display at this event. Vendors invited by the teacher must meet those qualifications.

Revised _____

CLASS RING DISPLAY

Annually, as a service to students and their parents, the board may provide a class ring display for students in grades nine through twelve. The service is designed to provide an opportunity for students and their parents to view class rings and accessories.

This policy does not require students or parents to purchase class rings from the vendor displaying at the school.

It shall be the responsibility of the superintendent to develop guidelines regarding the qualifications a vendor must meet to display at this event. Vendors are chosen by the principal and must meet the qualifications established by the superintendent.

ADULT EDUCATION

The board supports post-high school and adult education programs for the members of the school district community. The goal of the adult education program shall be to prepare individuals for democratic citizenship, to provide them with means for economic improvement and cultural development, and to enrich their personal lives.

The school district facilities shall be available for these education programs as long as they do not interfere with or disrupt the education program or other school district activities. It shall be the responsibility of the superintendent to oversee these programs.

No programs will be operated unless a predetermined number of individuals register for the program. This number shall be determined based upon the costs of the program. Proposed changes to post-high school and adult education programs shall be made in the manner set forth by the superintendent.

Adult education programs shall be provided in conjunction with a local post-secondary institution.

Revised _____

COMMUNITY EDUCATION

Learning is a life-long activity and the board supports community education programs to further this activity. The school district facilities shall be available for community education programs as long as they do not interfere with or disrupt the education program or other school district activities.

It shall be the responsibility of the superintendent to develop administrative regulations regarding the use of the school district facilities for community education programs.
